DETAILED ACTION

Response to Amendment

Election/Restrictions

1. Claim 9 has been rejoined into the application because of the arguments presented by the applicant in the 10/15/2007 response and amendment.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. The rejection of Claims 4 and 10 under 35 U.S.C. 112, second paragraph, is withdrawn because of the amendment filed 10/15/2007.

4. Claims 1-4, 6-12 and 20-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a) Claim 1, last line: it is not clear what is meant by different. Different in position on the medical device? Different in area?

Art Unit: 1792

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. The rejection of Claims 1-4, 6-8 and 10-12 under 35 U.S.C. 112, first paragraph ("reservoirs"), is withdrawn because of the amendment filed 10/15/2007.

7. Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

"wherein the first portion and the second portion are different" is new matter that was not in the specification as originally filed.

Moreover, it is not clear what is meant by "different" - in position on the medical device?
in size or area?

The examiner notes that Figure 3 shows one coating on top of a second coating. This apparently would satisfy the condition of the portions being "different".

The applicant is requested to cancel new matter.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. The rejection of Claims 1, 3, 4 and 6 under 35 U.S.C. 102(b) as being clearly anticipated by Tuch (5679400) is withdrawn because of the amendment filed 10/15/2007, but will be reinstated when the new matter (see paragraph 7) is deleted.

Claim Rejections - 35 USC § 103

10. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

11. The rejection of Claims 2 and 7-12 under 35 U.S.C. 103(a) as being unpatentable over Tuch (5679400) is withdrawn because of the amendment filed 10/15/2007, but will be reinstated when the new matter (see paragraph 7) is deleted.

Conclusion

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
